

July 1 2019

Each year Olivet College calculates the percentage of first time, full time, degree-seeking undergraduates (the “cohort”) who graduate with a bachelor’s degree within six calendar years of matriculation. This is commonly called the “150% graduation rate”. First time students are defined by IPEDS as those who have never earned college credits since their high school graduation, except for credits in the summer immediately following high school graduation. Only first time students who enroll full time in the Fall semester are included in the Fall Cohort. The final cohort is the total minus federally-allowed exclusions, such as those who leave for military service or foreign mission work.

Four-year average student right-to-know graduation rate: 48%

	Year of Entry						
	2006	2007	2008*	2009	2010	2011	2012
N Total Final Cohort, Fall	195	182	282	258	229	216	300
N Completing in 150% time	83	79	109	115	111	110	145
150% Graduation Rate (%)	43%	43%	39%	45%	48%	51%	48%

*This starts the academic year during a widespread recession in the country.

Most recent retention of 2017 Fall Cohort re-enrolling in Fall 2018: 60%

The Higher Education Act of 2008 requires disclosure of graduation rates broken down by gender, race/ ethnicity, and federal financial aid status. All graduation rates are based the “Final Cohort” who entered in the fall of the shown year as first time, full-time undergraduates. The “Final Cohort” can be reduced for students who die or suffer disability keeping them from going to college, go into federal service, enter the military, or go on overseas religious missions. The charts below are prepared in accord with that act, not reporting breakdowns that are statistically unreliable or where numbers are so small that they can reveal individual identities (*e.g.*, specific ethnic groups whose numbers are five or less). Underrepresented minorities (URM in charts) include anyone who was Black/African-American, American Indian/Alaska Native, Native Hawaiian/Other Pacific Islander and/or Hispanic/Latino/a.

Graduation Rate of 2012 Cohort by Gender and Ethnicity

Ethnic/ Gender group		Total Final Fall Cohort (2012)	Completing within 6 years (by Aug 2018)	Graduation Rate (%)
Men	All non-URMs	154	71	46%
	All underrepresented minority	31	12	39%
	Black or African-American	23	9	39%
	Hispanic/Latinoa/Chicanao	*	*	*
	White	150	70	47%
	Total men	185	83	45%
Women	All non-URM	**	**	**
	All underrepresented minority	*	*	*
	Black or African-American	*	*	*
	White	102	57	56%
	Total women	115	62	54%

*N is too small or unreliable to be reported publicly

** Totals are suppressed to prevent individual disclosure

Graduation Rate of Full Year Cohort by Federal Financial Aid Group

Federal Financial Aid Group	Total Full Yr Cohort (Fiscal Year 2010-2011)	Completing by August 31 of 2018	Graduation Rate (%)
PELL Recipients	202	97	48%
Stafford (Subsidized) and no PELL	106	58	56%
All Others	69	38	55%
Total	377	193	41%
